

COURTROOM OF THE FUTURE

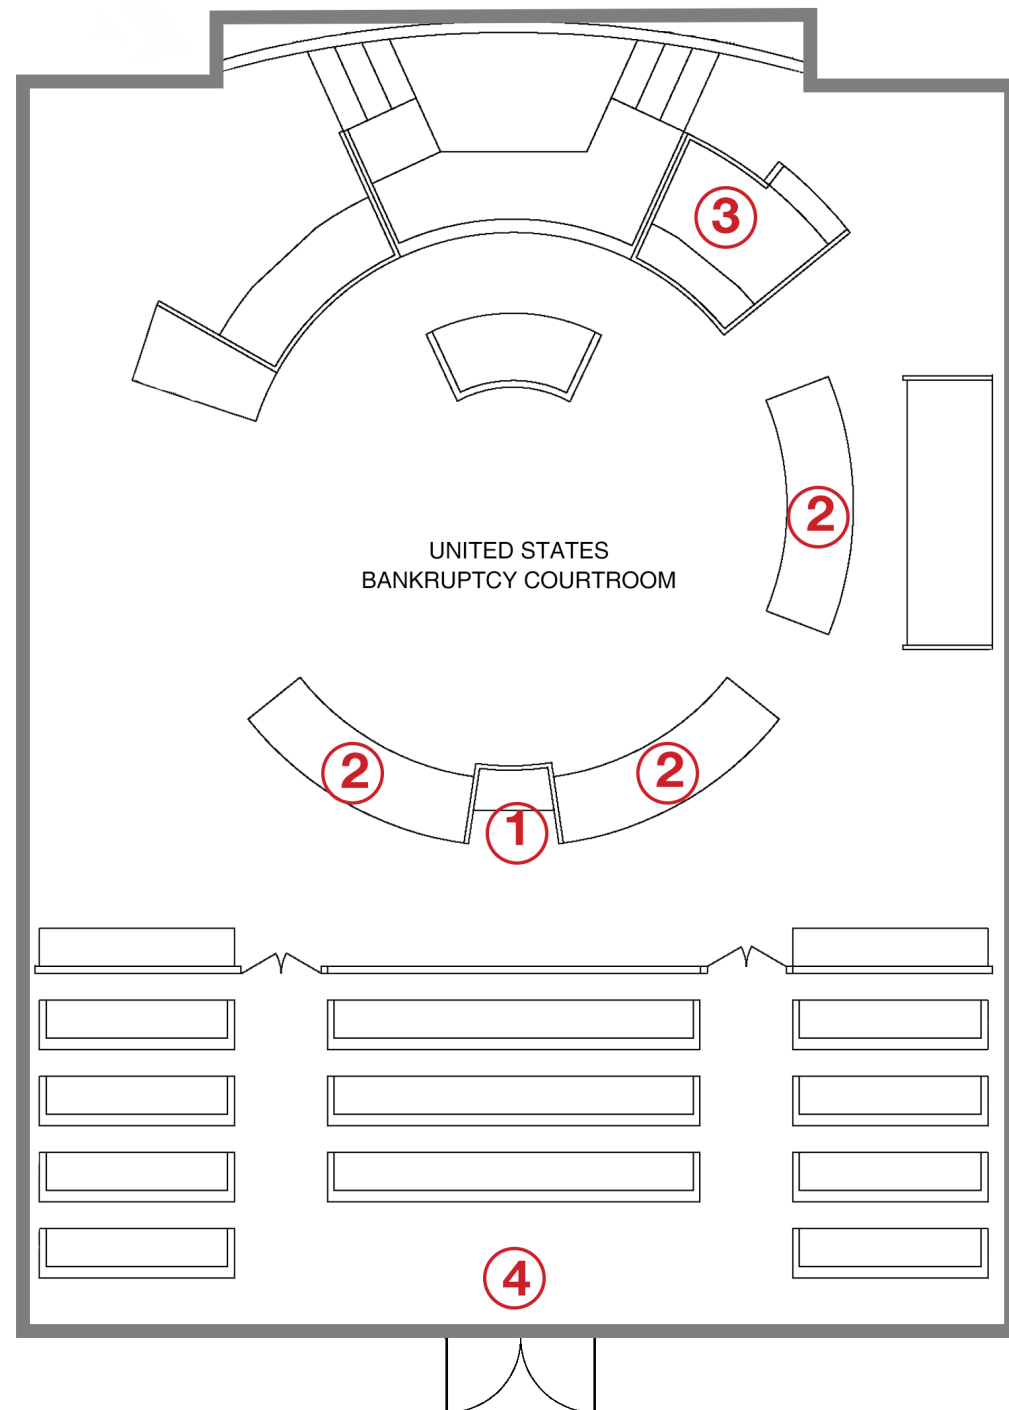

COURTROOM OF THE FUTURE

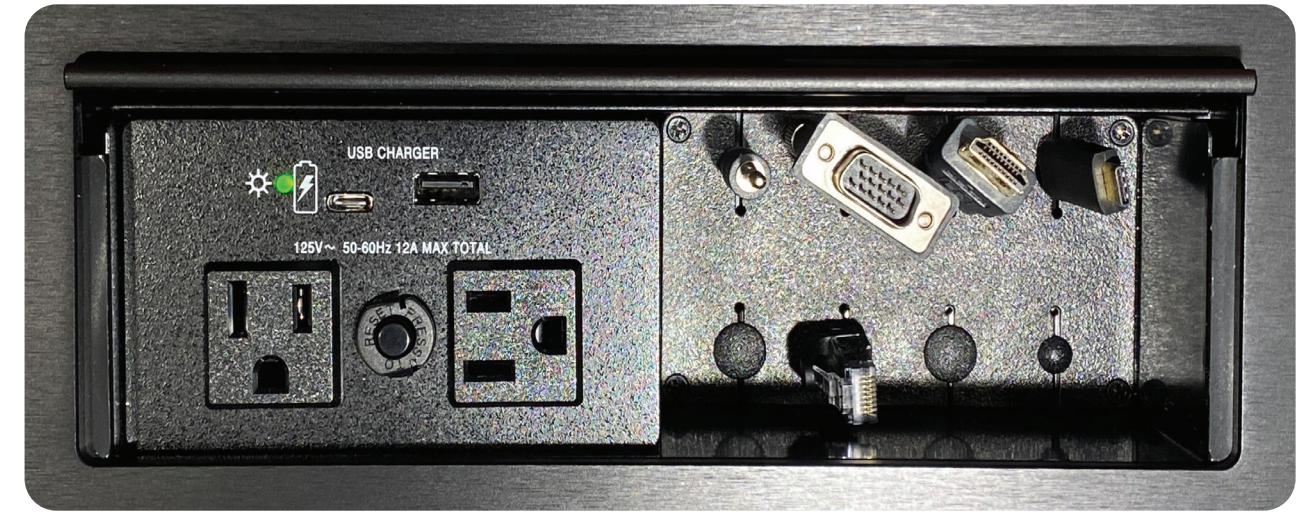

The U.S. Bankruptcy Court, Central District of California is committed to providing up-to-date technology for evidence presentation in the courtrooms. The Court's goal is the implementation and utilization of state-of-the-art technologies which are easy to use and intuitive for case participants (i.e., parties, attorneys, witnesses).

The Court is in the process of upgrading courtroom technology throughout the District starting with courtrooms 1368, 1375, 1539, 1545, 1568, 1575, 1639, 1645, 1668, and 1675 in the Edward R. Roybal Federal Building and United States Courthouse in Los Angeles.

This document provides insight into the technology utilized within those courtrooms as well as a glimpse of what other bankruptcy courtrooms in the district will receive in the future. Participants should familiarize themselves with any equipment they intend to use in advance of participating in any court matters.
